

*Cal Spas*<sup>®</sup>

Luxury Resort Living For Everyone

In 1979 at a crowded county fair, California Acrylic Industries was a Pomona, California-based pool builder searching for a way to exhibit a large variety of pool designs in a small space. To solve this dilemma, the company created smaller versions of its formed acrylic pools and put them on display for customers. The miniature pools immediately sparked interest and the company began to receive

special requests for acrylic hot tubs. A year later, with the company's hot tub business growing, California Acrylic Industries took a leap of faith. The company stopped building pools and focused full-time on the hot tub business. Cal Spas was born. Cal Spas current headquarters grew into a 1-million square foot State-of-the-Art manufacturing plant in Pomona, California.

# Quality Built in the USA

Over 3 Decades of Excellence

Cal Spas are proudly Made in America.

Cal Spas is proud to have earned the 2016 TradeCertified Award for the Tenth year in a row — a distinction given only to the top Hot Tub manufacturers!

A large, dark-colored hot tub with a white top is the central focus, situated on a wooden deck. The hot tub has several jets and a waterfall feature. In the background, a modern house with a brown facade and large windows is visible on the left. The right side of the background shows a scenic view of mountains and trees with autumn foliage. The sky is clear and blue.

## You're passionate about your backyard.

You deserve a brand that is equally passionate about making your outdoor living dreams a reality. At Cal Spas our passion-our business- is turning ordinary backyards into extraordinary dream Home Resorts.

# Select from 5 beautiful spa series

Cal Spas is dedicated to a simple vision: To enable busy families to create daily enjoyment, quality time and overall well-being with a ready-and-waiting oasis right in their own homes. Experience what so many others around the world are already enjoying. Embrace the Cal Spas Home Resort lifestyle in your home and discover the relaxation you didn't know you couldn't live without.

## Platinum™ Spas

Platinum™ Spas promote an accelerated spa hydrotherapy experience: blood circulation increases, immune response improves, and toxins are removed from the body. Experience relief from muscle pains, stiffness and symptoms of daily stress. Elevate your physical and mental well-being with a beautifully refined Platinum™ Spa.

## Platinum™ Plus Spas

Platinum™ Plus Spas takes our spas to a new level of hydrotherapy. Platinum™ Plus Spas are designed to meet your specific needs and target the muscles and/or joints using Cal Spas' exclusive Aquatic Air Therapy™. Each Platinum™ Plus Spa is designed by you for you. You decide the jet options for your personalized therapy sessions. Improve your quality of life with a Platinum™ Plus Spa.

## Escape™ Spas

Escape™ Spas are designed to suit your daily hot tub preferences. Adjustable controls and innovative feature options immediately deliver the level of therapy that will exceed your expectations. Escape from the daily grind into your own private oasis in the comfort of your own home.

## Escape™ Plus Spas

Hydrotherapy is a personal experience, Cal Spas Escape™ Plus Spas are customizable to your daily hot tub preferences. Create your very own personalized hydrotherapy package to reduce pain in your specific targeted areas. Exceed your hydrotherapy expectations with a hot tub experience designed by you with the Escape™ Plus Spas.

## Patio™ Spas

The Patio™ Spas collection from Cal Spas combines classic design and cutting edge technology while delivering a total body hydrotherapy experience. Patio Spas are convenient Plug-N-Play Spas which function from a standard 110V outlet. Plenty of options complement any outdoor environment, style, and personal level of comfort.

## Patio™ Plus Spas

Create a spa that is designed to cradle your body in key areas. The Patio™ Plus Spas are designed to complement any patio, while a 5.0 BHP Pump exudes a potent hydrotherapy experience. Share the ultimate hot tub experience with a loved one in an intimate Patio™ Plus Spa.

## Swim-Pro™ Swim & Fitness Spas

Embrace the ultimate aquatic workout experience with an Ultimate Fitness™ Swim Spa. Enjoy the convenience of a complete aquatic exercise regime in the comfort of your own backyard. Ultimate Fitness™ Swim Spas are precision-engineered to offer resistance swimming against a smooth current that is adjustable to your speed and ability. Increase your strength with optional training accessories that target major muscle groups. Experience the ease of owning your own swim spa and feel the benefits of a healthier lifestyle.

## Inground™ Spas

If you are looking for a custom built-in spa for your backyard Home Resort, then the In-Ground™ Spa collection has the perfect spa for you! These premium in-ground spas are practical alternatives to traditional concrete hot tubs and can be customized to fit your backyard landscape. Getting that custom built-in look for your backyard has never been so easy! Available with or without massage therapy jets, In-Ground™ Spas are the ultimate answer to relaxing in-ground hydrotherapy.

### American Made

Cal Spas hot tubs are produced in a one million square foot facility in Pomona, California. This dedication to American jobs and handicraft has made Cal Spas the undisputed leader in the Home Resort industry.

### Widest Selection

Cal Spas offers the most hot tub molds in the industry, ranging from intimate models to oversized spas you can swim in. Add thousands of option combinations and you're guaranteed to have a hot tub that best represents you.

### Standard of Excellence

Enjoy your hot tub with peace of mind, knowing that each spa design is listed with the Underwriters Laboratory (UL), a third-party organization that demands the most rigorous safety standards.

### Value

No other manufacturer packs as many standard features into one spa as Cal Spas. You have a choice and Cal Spas rewards your decision to bring us into your home by offering you the highest quality products at unbeatable value.

## Every seat is the best seat

Sitting in a Cal Spas hot tub is an experience like no other. Each seat is finely crafted to gently cradle your body in key areas. Molded armrests ensure maximum support, while Tactile Therapy Bumps allow you to massage tension out of feet, palms and wrists. Most importantly, Cal Spas has devoted special care to placing jets in strategic locations and targeting areas where you need relief most like the neck, shoulders and lower back.

# Targeted muscle relief therapy

Seats are contoured and jets are placed along the lines of the body for maximum therapy. Cal Spas hot tubs feature numerous jet configurations to satisfy your hydrotherapy demands. Many models feature a full body massage by simply moving from seat to seat. Best of all, Cal Spas offers a generous selection of shoulder and neck massage options for spa models that can accommodate them.

1

### Ergonomic Lounger Seat

The full-sized lounge seat is finely crafted to cradle your body while enjoying a subtle yet potent hydrotherapy massage. Relax, lay back, and enjoy the utmost hydrotherapy experience available on a hot tub.

2

### Adjustable Therapy System™ (ATS)

Our patented ATS seat features a dedicated motor and control panel that allows you to personalize your massage to seven distinctive pressure levels. The 14 dedicated jets can be programmed to emit various massage patterns to suite your comfort.

3

### Aquatic Air Therapy™ (ATS)

Aquatic Air Therapy™ infuses air and water with jet engine technology to create a kinetic power to create a complete soft tissue therapy experience. The combination of the three different flow patterns offers rejuvenation to sore muscles and tired joints.

4

### Hydro-Pro™

Cal Spas Exclusive Stainless Steel Hydro-Pro™ Jets with patented design feature a unique transparent and stainless steel "candy cane" design. These striking hot tub jets are standard on Cal Spas hot tubs.

5

### Quad Neck Jets and Multi-Jet Seat

Just like having your own personal masseuse, four (4) jets provide unparalleled rehabilitation for neck and shoulders. Rest your head on a comfortable custom pillow while you receive the message of a lifetime.

6

### Deep Tissue Massage Seat

Rejuvenate your body post-workout with an intense hydromassage. Deep Tissue Massage Jets can suppress inflammation and accelerate cell recovery for a continuous exercise regime.

7

### Footwell with Tornado Jet

Cal Spas understands that taking care of your lower body is just as important as your upper body. That's why Cal Spas hot tubs feature spacious and textured footwells with a tornado jet. Tactile Therapy Bumps and dome jets target your sore tired feet while the Tornado Jet massages away aches and strains from a busy day.

8

### Calves Jet

Directional jets incorporate an inner adjustable nozzle that can be moved with the tip of your finger to massage a wider area of your calves for an intense hydromassage.

9

### Unsurpassed Jet Varieties

Cal Spas offers a varied selection of spa jet faces, each with their own specialized function. These jets are positioned in various configurations to deliver unique hydrotherapy massages that pinpoint specific areas of the body. A simple twist of the wrist can turn each jet On or Off for ultimate customization. Stainless-Steel options are available on select models.

*Seats featured are from the Platinum Series*

## Shell construction and seating

Each Cal Spas hot tub is constructed with precision. Our engineers and experience production team has crafted each spa to last.

### The Strongest Spa Shell in the Industry

Durability is paramount when it comes to your home investments. That's why Cal Spas hot tubs utilize the exclusive Fibersteel™ Construction Process. The finest acrylic sheets are vacuum molded into shape, then reinforced with vinyl ester and fiberglass. After curing, the shell receives a resin filler coat, fiberglass and calcium carbonate. Stiffener reinforcement supports and 1 ½ inch angled irons are added to ensure maximum strength. A final filler coat is applied to seal, bond and toughen the overall structure.

### Fibersteel™ Construction

- A seven layer system with a metal insert adds structural integrity which is reinforced with both steel and wood
- The thickest fiberglass backing available in the industry
- Protects your investment from damage and lowers heating costs
- Durable Integrated Frame ensures lower heating bills by surrounding the hot tub in an extra layer of protection

### Reinforced Framework

Each Cal Spas hot tub is built on a structure of pressure treated wood that resists corrosion, decay and insect damage. The frame is constructed from a sturdy design of rails and cross-bracings which are secured by 1 inch galvanized staples for solid strength, while vertical supports are shored with plywood corner gussets and vertical angle bracings.

### Spa Seats

Sitting in a Cal Spas hot tub is an experience like no other. Each seat is finely crafted to gently cradle your body in key areas. Molded armrests ensure maximum support, while Tactile Therapy Bumps allow you to massage tension out of feet, palms, and wrists. Most importantly, Cal Spas has devoted special care to placing jets in strategic locations and targeting areas where you need relief most like the neck, shoulder and lower back.

### Kool Seat

**(Only available on Escape Spas)**

Allow your body to acclimate to new temperatures - getting in or out of the spa - with the elegantly designed transition seat, which is elevated in order to keep you half-immersed.

### Bench Seat

When accommodating a group is a priority, there is no substitute for Cal Spas bench seating. Guests are given the greatest range of movement and side-by-side seating makes it easy to get closer for more private encounters. Cal Spas takes special care to ensure that the footwell is large enough to accommodate the entire group.

### Lounge Seat

This seat represents the very best in relaxation and features spa jets that target the upper and lower body for unrivaled hydrotherapy. The ergonomic design ensures that bathers don't float out of the seat. Cal Spas hot tubs are the only spa on the market that is designed to fit your body and doesn't expect your body to conform to the hot tub.

## Water clarity at it's best

From hydration to sanitation, pure, clean water is important for any closed system including swimming pools and hot tubs. Left untreated, these bodies of water are subject to harmful, microscopic bodies known as microbes that can foul water and cause odor, film and mold. The enjoyment and safety of your family is Cal Spas' main concern, offering you several choices in maintaining the silky smooth water you deserve.

### Bio-Clean™ Antimicrobial Filter with TeleWeir Gate

A special bacteria-fighting agent is molded into the fabric of the filter and prevents harmful microbes and bacteria from reproducing. A TeleWeir Gate prevents debris from re-entering your water system.

### Effective Water Management System

This easy to access, reusable filter provides balanced filtration and prevents debris from re-entering your spa.

### PureSilk™ Ozoneator

The Eco-friendly PureSilk™ Ozoneator by Cal Spas instantly kills bacteria through exposure to the Ozone while minimizing chemical usage. It features exclusive moisture-sensing technology that delivers virtually maintenance-free operation. The unit automatically shuts off when moisture is detected inside. Once the moisture has dissipated, the unit starts again automatically.

### Synergy™ or Hybrid Clear Water System

Combining Ozone and UV water treatment technologies to avoid or reduce the use of chlorine, bromine and other sanitizers to treat a closed water system formulates the Synergy™ System. Water is treated by combining water filtration and purification technology.

Cal Pure™ Salt System

Digital Display

### CalPure™ Salt System

Sodium bromide (NaBr) is an effective bacteria killer that should be part of every hot tub's water clarity regimen. The eco-friendly CalPure™ II Salt System instantly turns salt into bromine to keep your hot tub water clean and fresh. This perpetual sanitation cycle kills bacteria, algae and other pathogenic organisms without ever requiring additional sodium bromide. A dedicated digital topside display monitors the salt levels of your spa at all times. The CalPure™ II Salt System also eliminates the need for an Ozoneator. The following features offer you a peace of mind:

- Reduced chemical use = increased savings
- Reduced chemical damage to the spa equipment
- Increased spa lifetime
- Automatic and complete water sanitation
- Automatic bromine generator
- No floaters or feeders
- Odorless, silky water
- No quarterly draining
- No scum lines
- ETL listed

### Tru Blue™ Vacuum Safety Break

This life saving feature prevents entrapment by automatically reducing water flow in the event of an obstruction. This unique safety feature is standard on all of our hot tubs

## Power & strength you can depend on

Cal Spas switchless booster pumps are built with quality you can trust and power you can feel. Our motors feature low and high speeds with exclusive switchless technology. The low speed is used for filtration and heating while the high speed is used for creating a pressurized massage. Cal Spas hot tubs are designed to heat efficiently through the use of state-of-the-art heaters that transfer the maximum amount of heat directly to the water.

TP800

Control

### Smart Spa Control Center™

An intuitive electronic spa control system designed to easily adjust the settings of the spa to meet your therapeutic needs.

### Eliminator™ Power Frame Pump

A high-performance pump that efficiently circulates and filters spa water with ease. The Eliminator™ Power Frame Pump offers durability and better performance.

### Quiet Clean™ 100% Filtration System

- A 24-hour circulating pump constantly and quietly heats the water
- Continuously filters heated water
- Quietly operates water features, such as Cascade Waterfall, without the need to run therapy pump
- Saves energy by minimizing pump operation
- Available as an option

### Whisper Power Unit™

Cal Spas hot tubs are easily managed by large, easy-to-read digital control panels that operate everything at a touch including the pumps, lighting and heaters. Maintain your water at the perfect temperature and change the color sequence of the underwater LED lighting with a simple touch of a button with the Cal Spas Whisper Power Unit™

### Whisper Hot™ Titanium Heater

- 3 stabilizers minimize vibration while adding durability and reliability.
- The structural bulkhead bracket assures that the element is always centered in the housing, providing smoother flow around the element, combined with decreased harmonic vibration. This adds up to improved durability and reliability.
- A chemically-inert epoxy seal, instead of brazing, improves corrosion resistance.
- Computerized element bending specs simplify heater assembly and improve manufacturing reliability

## Cabinet, frame and spa covers

Every Cal Spas hot tub is constructed with elegant and durable paneling to protect your investment and add lasting sophistication to your Home Resort.

### Pressure Treated Cabinet Frame

Our cabinet frames are treated to resist rot, corrosion and insects and constructed using 1" galvanized steel fasteners, corner gussets, and vertical angle bracings for added beam support.

### Galvanized Steel Cabinet Frame

Constructed of high grade 316-schedule 40 galvanized steel piping, the frame of a Cal Spas hot tub is non-corrosive, rust-free and offers a higher strength to weight ratio to support the tub while it is filled with water.

Cabinet Drain

### Cal Preferred™ Vertical Cabinet Panels

Each cabinet is designed to provide maximum support for every spa and can be styled to match your favorite shell color with eye-catching panels available in select colors.

### Cal Preferred™ Horizontal Panels

These highly-durable panels mimic the look of natural wood and are standard on all Cal Spas hot tubs in a variety of colors that complement any backyard landscape. The Cal Preferred™ Horizontal Cabinet Panels are completely maintenance free, weather resistant and flame retardant. Best of all, these panels will maintain their rich color for the years to come with the UV light inhibitors that are integrated into the cabinet's construction.

### Cal Stone™ Cabinet Panels

These heavy-duty synthetic panels highlight natural layered stone details and are insulated with polyurethane foam for additional insulation. The Cal Stone™ Panels also incorporate the look of top rails into their design and complement any backyard landscape. These weather resistant earth-tone panels not only look great; they are also extremely sound-deafening, durable, and maintenance free.

### Reinforced Framing

Frame is white-welded together as opposed to being riveted together, adding overall strength to the frame and providing greater structural integrity and making it dimensionally stable.

### Water Resistant

The frame is sprayed with a layer of zinc, creating a smoother surface and making it weatherproof.

### Thinner Frame

Allows for more interior cabinet space giving the spa equipment room to breathe and making the spa easier to service.

### Hydro-Armor™ Spa Covers

Our Hydro-Armor™ Deluxe 5" to 3" tapered hot tub cover, with high-density foam and safety child lock technology, can be added to any Cal Spas hot tub as an upgraded feature. With the industry's first tapered cover design, our covers are designed to maximize heat retention, lower operating costs and protect your hot tub from all elements.

## Cal Spas insulation

Insulation is one of the most important aspects to consider when purchasing a hot tub. By incorporating high-quality insulation into the spa structure, Cal Spas is reducing the time it takes for the water temperature to pass from the body of water to the outside environment. By effectively doing so, the time that it takes to heat and maintain water temperature is reduced and in return, saving you money on your electric bill.

### Thermo-Shield™

Insulation Cal Spas Thermo-Shield™ insulation system starts by installing a unique material primarily comprised of post consumer recycled denim. This 3" thick insulating material foundation is then thermally bonded with a 99% pure aluminium reinforced foil sheet on one side creating a radiant heat shield which directs motor and equipment heat back into the spa, retaining residual heat and increasing energy efficiency. Next, we install a layer of dual walled reflective bubble foil to the floor area of the spa to reflect heat upward into the spa seat and floor. Finally we add an ABS liner or ABS moulded pan that locks in heat and keeps moisture out.

### Environmentally Friendly

Made from recycled denim, Cal Spas Thermo-Shield™ is a safe and sustainable choice for insulation.

### Better Freeze Protection

Other methods of insulating often leave key components exposed to the elements with separated equipment bays and outside air intake lines.

### Maintenance and Service

Thermo-Shield™ equipped spas are much easier to perform maintenance on compared to conventionally insulated spas.

### Nearly Silent Operation

Spas with Cal Spas Thermo-Shield™ operate 14% quieter than conventionally insulated spas.

### 15% More Efficient

Cal Spas Thermo-Shield™ Insulation is 15% more efficient than spas with typical urethane full foam insulation.

### Warm Air Injection

Unlike foam filled or Fiber filled spas, Cal Spas Thermo-Shield™ insulation provides a warm air environment from where Air Controls draw their air, which helps maintain water temperature and lower operation costs.

### 3" Thick Thermo-Shield with Aluminum Reinforced Foil

Cal Spas Thermo-Shield™ Insulation and the radiant heat barrier it creates is 18% more efficient than current energy standards set by the California Energy Commission (CEC) for spas.

### Controlled Air Space

Pump and equipment life are greatly improved by utilizing the entire spa cabinet for airflow rather than conventional methods of isolated equipment compartments.

### ABS Liner or ABS Moulded

pan that locks in heat and keeps moisture out.

### Dual Walled Reflective Bubble Foil Flooring

In spa to reflect heat upward into the spa seat and floor

### Thermo-Layer™ Insulation

- R-20 value thermal resistance
- This additional layer of insulation keeps cold out and retains heat
- Polystyrene cabinet panels provide additional insulation for increased energy efficiencies
- Energy Smart Thermo-Guard™ Full Foam Insulation – prevents heat from escaping

### Thermo-Guard™ Full Foam Insulation

- High density Thermo-Guard™ Full Foam Insulation locks all plumbing firmly in place
- Closed cell foam provides additional structural support and helps repel water
- Space between the frame and the spa contains half-pound fill to add an additional layer of protection
- Finishes with a 2 lb. layer of foam for additional insulation from the bottom to the top of the spa
- Increases energy efficiency
- Shell-Loc™ Foam Technology provides an additional layer of protection, lowering overall operating costs

## Entertain in style

Cal Spas lets you switch up the look and feel of your hot tub with the simple touch of a button. Underwater LED lighting allows you to enjoy an evening soak in style and comfort, while C-LITE LED Cabinet Lighting illuminates your spa's exterior.

### Interior Perimeter LED Lighting

LED multi-colored lighting creates a visual array to impact your spa experience

### Premium LED Spa Lighting

For your evening spa soaks, LED lighting options can be found along the top perimeter of the spa in the form of topside lighting and illuminated, valves, cup holders and logos on some spas. Best of all, LED lighting can be programmed to alternate between each color on the color wheel or shine a particular hue to match your mood.

LED Cup Holder

### Hi-Light™ LED Jets

- Each hot tub jet can be lit with bright multi-colored LED Lighting
- Several distinct color modes available

### Hi-Functionality

- Each jet features independent on/off functionality
- Each light comes on when the jet is set to max and off when shut off

### Hi-Performance

- LED Lights do not impede the water's flow
- Unobstructed flow means these jets are designed to perform

### Cascade Waterfall

These dramatic water fixtures create a tropical environment, transporting you to the exotic paradise of your imagination. Waterfalls come in classic cascade or vertical fountain styles and are specific to each series. The new four-stream Rainfall water fixture features high-angle trajectory that emulates the serenity of rain. LED lighting options also enhances the look and feel of any waterfall.

### C-LITE™ LED Cabinet Corner Lighting

Corner Cabinet Lighting add an elegant look to any backyard or patio. Light up your world! You decide how much light you need with a 2- or 4-corner lighting package. Powered with energy-efficient LED bulbs, the C-LITE™ is a cost-effective way to enhance the look and feel of your hot tub.

## Cal Spas sound systems

Cal Spas builds an entire entertainment center into your spa, making your Home Resort an all-in-one solution to your relaxation needs.

### iSound

- X-iPod dock transmits RF audio to a high-output, high-range speaker system with two (2) 4" or four (4) 6" speakers and remote
- 72 watt weatherproof speakers
- Larger IC Tuner with improved reception
- State-of-the-art remote control with: 3 Balance and fader 3 Blue backlight display – displays FM station and iPod song titles 3 Preset FM radio stations
- External Controls • USB port • Bluetooth capability
- High Power Subwoofer for ultimate sound system (optional)

### Waterproof Marine-Grade Speakers

Between the effects of hydrotherapy and stress-reducing effects of music, you'll transport your senses into another dimension of relaxation with an added speaker package on your Cal Spas hot tub. Connect your smart device and enjoy high fidelity sound year after year. Change the station with the simple touch of a button and let the fun continue long into the evening.

### Cube Speakers

High quality, robust and durable silver grill waterproof marine speakers. (Available in the Platinum Series)

### Freedom™ Sound

Bluetooth technology lets you control your music through your smart device from anywhere inside, or outside your Cal Spas hot tub. The Freedom™ Sound system comes with subwoofer and 4 speakers.

## Fountain of Youth™

Fountain Of Youth™ is a new patented hydrotherapy that rejuvenates your body and skin, making you look younger and feel better. The gentle effervescent sensation and silky feel of the water are signs that your body is benefiting from the super saturated water filled with billions of oxygen rich micro-bubbles.

These micro-bubbles, increase oxygen levels in the water and blankets your body, energizing skin cells, stimulating the immune system and collagen production, killing bacteria and promoting healing. Hydrate your body, plump your skin, and reduce fine lines and wrinkles with the Fountain of Youth™.

### The #1 Hydrotherapy Choice

Billions of micro-bubbles are released into the spa, forming a gentle cloud suspended in the spa water. The Fountain of Youth™ is a combination of warm water and air jet hydrotherapy. It is the quietest form of active hydrotherapy and can be combined with any other form of hydrotherapy.

### Benefits of an oxygen-rich bath:

- Increases the oxygen levels in the spa by up to 70%
- Oxygen naturally improves the collagen production in your skin, which reduces signs of aging
- Energizes skin cells
- Stimulates your immune system
- Naturally kills bacteria
- Promotes healing

### Benefits of negatively charged ions:

- Naturally improves serotonin levels
- Neutralizes free radicals
- Relaxes your mind and body
- Warm Spa Experience
- Micro-bubbles stay suspended in the water
- Maintains a warm bath temperature for ultimate relaxation
- Creates an improved "sauna effect"

Immerse your senses in a Cal Spas exclusive Fountain of Youth™ spa and experience new technology like never before. These specialty indoor/outdoors spas are available in a lounge or bench configuration. Upgrade your hot tub with 15 hydrotherapy jets that convert your Fountain of Youth™ spa into the ultimate therapeutic experience.

# Adjustable Therapy System™ (ATS)

## Adjustable Therapy System™ (ATS)

Our patented ATS seat features a dedicated motor and control panel that allows you to personalize your massage to seven distinctive pressure levels. The 14 dedicated jets can be programmed to emit various massage patterns to suite your comfort level. Not only will you enjoy premium personalized hydrotherapy, but you will also experience tremendous cost and energy savings.

### Targeted Muscle Relief Therapy

The ATS seats are contoured to conform to your body while the jets are placed along the lines of the body for maximum therapy benefits.

- 7 Gentle & powerful alternating bursts
- 6 Quick powerful, continuous bursts
- 5 3 gentle bursts followed by 1 vigorous burst
- 4 Swift rolling bursts
- 3 Accelerated continuous bursts
- 2 Medium continuous burst
- 1 Low rolling bursts

Our patented ATS seat features a dedicated motor and control panel that allows you to personalize your massage to seven distinctive pressure levels. In addition, the 14 dedicated jets can be programmed to emit various massage patterns to suite your comfort.

# Aquatic Air™ Therapy

## Aquatic Air Therapy™ (AAT)

Aquatic Air Therapy™ infuses air and water with jet engine technology to create a kinetic power to create a complete soft tissue therapy experience. The combination of the three different flow patterns offers rejuvenation to sore muscles and tired joints.

## Aquatic Air Therapy™ Jets

The Aquatic Air Therapy™ (AAT) Jets in conjunction with the massage ring provides a massage therapy experience for sore muscles or aching joints (Available only in select areas of spa).

### Flex Jet™

The Flex Jet™ delivers a gentle but strong stream of water to more delicate areas of the body including wrists, joints and extra sensitive muscles. Experience immediate alleviation from the massage ring included on the Flex Jet™.

### Duo Jet™

The Duo Jet™ is perfect for larger parts of your body including lower back, legs and shoulders. Place your back on the Duo Jet™ for a complete rehabilitating massage therapy experience.

### Precision Jet™

The Precision Jet™ emits the perfect combination of air and water to target specific problematic areas while a soft massage ring provides relief on contact. Relieve muscle tension and soreness with the Precision Jet™.

### AAT Air Control

The Aquatic Air Therapy™ has its own dedicated Air Control that allows you to adjust the air flow precisely to create your total spa therapy experience.

Ultimate Foot Therapy

# Massage Therapy

## Cal Spas Hydro-Pro™ Jets

Cal Spas offers a varied selection of spa jet faces, each with their own specialized function. These jets are positioned in various configurations to deliver unique hydrotherapy massages that pinpoint specific areas of the body. Personalize your hot tub experience with Cal Spas accessories.

### Cover EX Premium Hot Tub Cover Lifter

The surprising ease in which the Cover EX helps remove your spa cover will impress, and will undoubtedly lead to more soaks in your hot tub. Reinforced aluminum construction ensures that the EX will outperform in any backyard environment, requiring only 12" of operational clearance. #ACC01600121

### Cover Rock-It Hot Tub Cover Lifter

The Cover Rock-It slides effortlessly behind the spa enabling a view from all sides while in your hot tub. While the spa is in use, the Rock-It reduces cover wear-and-tear by keeping the cover off the ground. The powder coated finish, in addition to the improved strength, ensures years of effortless spa cover removal. #ACC01601020

### Spa Side Towel Tree

The Spa Side Towel Tree is the stylish way for any spa owner to keep their towels off the ground and within reach. Its aluminum construction stands up to the most extreme climates and the detailed powder coats complements the overall look. The towel tree assembles in minutes, and is available in a Bronze finish. #ACC01600600-B

### Spa Side Handrail

The Spa Side Handrail provides 360-degrees of movement to allow easy entry and exit. An added locking feature enables the handrail to be fixed in any position for increased safety and peace of mind. The attractive carbon gray powder coat is accented by the new battery-powered LED mood lighting located on the interior curve of the rail. #ACC01600501

### Cal Spas Steps

Our most popular spa step option, these steps feature a texture design to reduce slipping. Available in Black #ACCESSBLK

### Spa Side Umbrella

The Crème colored Spa Side Umbrella is a stylish enough to compliment any spa environment all the while protecting the spa from the elements. Its versatility allows for 360-degrees of travel as well as a crank-and-tilt mechanism that offers trouble-free operation. #ACC01800603-C

### Water Brick Water Seat Spa Cushion and Hot Tub Booster Seat

Made of black PVC coated vinyl, the Water Brick doubles as a comfortable seat cushion while increasing the seating height for shorter spa users. The 4" thick cushion offers substantial support and comfort compared to seating directly on any spa surface. #ACC01400483

# Swim-Pro™ Swim & Fitness Spas

## Hydro Streamers

with LED lights enhance the beauty of hydrotherapy which can be enjoyed from inside or outside the spa.

## Stainless Steel Candy Cane™ Jets

and Jet Propulsion System provide the utmost experience for up to seven people at once.

## Cascade Pillows

add unique style and comfort to your hydrotherapy experience. Comfortable pillows accent the spa and provide the perfect amount of support.

## Whisper Power Unit™

BP20X Equipment with Spa Touch topside control with larger LCD screen lets you conveniently adjust spa functions.

## Swim-Pro™ Swim & Fitness Spas

are equipped with Thermo-Shield™ foam insulation and Hydro-Armor™ spa cover to help reduce heating costs and save you money over time.

## UL Rigorously Tested

All Cal Spas swim spas are certified to meet and exceed all standards of compliance.

### 1 Fibersteel™ Construction

A seven layer system with a metal insert adds structural integrity which is reinforced with both steel and wood. The thickest fiberglass backing available in the industry. Protects your investment from damage and lowers heating costs. Durable Integrated Frame ensures lower heating bills by surrounding the hot tub in an extra layer of protection.

### 2 Designed for Comfort

Each swim spa seat features PurePlush™ Comfort Pillows for a relaxing maximum hydrotherapy experience. Shown with optional LED lighting.

### 3 Floor Mounted Swim Lane Marker

(on select models)  
A visual aid placed at the swim spa floor to help keep the swimmer in the center of the swim spa current for maximum swim resistance.

### 4 The Complete Aquatic Workout

A fitness handle bar and fitness anchors are standard in all swim spas for the Optional Cal Spas Exercise Equipment. 16 Pc. Cal Spas exercise equipment set with storage bag.

### 5 Cal Spas Tether Bar Kit

Cal Spas swim spas include a tether anchor for the optional Cal Spas Tether Bar Kit.

### 6 Hydro-Pro Swim-Mill + Resistance I™

(F1420 & F1222)

### 7 Hydro-Pro Swim-Mill + Resistance II™

(F1437)

### 8 Hydro-Pro Swim-Mill + Resistance III™

(F1640 and F1770)

These adjustable Hydro-Pro Swim-Mill + Resistance Propulsion System offer swimmers various levels of resistance swimming. When the jet nozzle is directed downward, the swimmer will experience a decreased level of resistance. If the jet nozzle is directed upward, the swimmer's resistance will dramatically increase.

### 9 JetStream Stabilization System™ for Swimmers (F1770)

The exclusive Jetstream Stabilization System™ featured in our F1770 fitness spa uses water pressure to help keep swimmers in place as they swim against the powerful underwater current generated by the spa's main swim jets.

### 10 Hydro-Armor™ Spa Cover with 5"-3" Tapered Design

A tapered edge and angle downward from the center prevents precipitation from pooling. 100% marine-grade with a vinyl top, filled with & supported by 18-gauge steel C-Channel beams.

Cal Spas offers Six types of swim spas—known as the Swim-Pro™ Swim & Fitness Spas—for every fitness level, from beginner to health enthusiast to the professional athlete. With these swim spas you have the convenience of a complete aquatic gym right in your very own backyard. The Swim-Pro™ Swim & Fitness Spas are designed to provide the best aquatic workout, such as treadmill swimming and strength training.

**11 Exclusive Stainless Steel Candy Cane™ Jets**

Adjustable On/Off design. These jets are carefully placed along the lines of the body, allowing you to massage away stress while comfortably leaning back in the luxuriously-designed seating, delivering the highest quality hydrotherapy and relaxation experience available.

**12 Exclusive Hi-Light™ LED Jets**

This optional light feature enhances jets with bright LED lighting which can be programmed to alternate among seven colors on two color modes or shine on a particular hue with on/off functionality.

**13 Individual On/Off Flow Control**

Our convenient control valves allow you to direct the flow of spa water to different areas of the spa. Optional LED lighting available.

**14 Hydro Streamers™**

Up to eight breathtaking LED Hydro Streamers™ instantly turn any backyard into a beautiful tropical paradise on selected models.

**15 Exclusive Bio-Clean™ Antimicrobial Filter with Weir Gate**

Our Eco-friendly Bio-Clean™ Antimicrobial Filter utilizes a special bacteria-fighting agent that is molded into the fabric. This unique protectant prevents harmful microbes and bacteria from reproducing and re-entering your water system ultimately minimizing the need of chemical sanitizers during regular cleaning and maintenance.

**16 Exclusive Stor-Dry™ Winterizing Plumbing System**

All lines are plumbed to the drain valve to enable full water drainage and protect the spa from freezing during cold weather months.

**17 VGB Approved Vacuum Break Intake System**

Designed for increased performance and enhanced safety, our larger capacity VGB vacuum break intake system eliminates the need for multiple intakes. Safety break feature automatically reduces pump suction in the event of an obstruction or intake blockage.

**18 Exclusive Whisper Power Unit™ Control System**

State-of-the-art controls make Cal Spas swim spas the easiest spa to use. Advanced technology automatically keeps spa water at desired temperature.

**19 WhisperHot™ 5.5 kW Titanium Heater**

Titanium's inert properties resist corrosion and calcium build up, making it the most advanced and reliable heater in the industry.

**20 High Performance 6.0 BHP Swim Jet Pump**

The most reliable motors in the industry with less moving parts. These motors feature two independent winding speeds for maximum efficiency and durability, and a reverse-flow cooling system that keeps the motor cool and extends its lifetime.

**21 5" LED Spa Light**

Add a touch of romance to your Swim Spa. The LED light can be programmed to alternate among seven colors on two color modes or shine on a favorite hue.

**22 PureSilk™ (CD) Ozonator**

Ozone (O3) an extremely effective oxidizer, is injected into the spa water to oxidize organic waste. This oxidation process frees up the sanitizer to be more effective in destroying harmful microorganisms and killing bacteria - reducing the amount of chemicals needed.

**23 Synergy™ Clear Water System**

The Safest Way to Disinfect Your Hot Tub Water Naturally Combining water treatment technologies to reduce the use of chlorine, bromine and other sanitizers to treat a closed water system, provides peace of mind and an organic way to enjoy your spa worry-free

**Synergy™ Clear Water System Components Pure Silk™ (CD) Ozonator**

Injects ozone into the spa water where it can kill/neutralize bacteria and other water borne pathogens making your spa water cleaner & safer to enjoy.

**Pure Cure™ UV Purification System**

UV adds no chemicals to the water and won't interfere with the oxidation process of injecting ozone. UV also has zero impact on water balance. Our Pure Cure™ UV System exposes microorganisms to UV light, killing them instantly and preventing them from reproducing.

**24 iSound™ iPod Stereo System**

Start the party with the optional iSound™ iPod Stereo System & FM receiver, speakers and floating RF remote. Just plug your iPod, iPhone or iTunes into the dock and adjust the volume for your favorite soundtrack on demand.

**Integrated Bluetooth Sound System with (4) Speaker**

Control the optional Integrated Bluetooth Sound System with your personal smart devices. Manage the music and volume from the convenience of your smart phone, tablet and wireless headsets.

# Designer Inground™ Spas

## Inground Spas

If you are looking for a custom built-in spa for your backyard Home Resort, then the Inground Spa collection has the perfect spa for you! These premium in-ground spas are practical alternatives to traditional concrete hot tubs and can be customized to fit your backyard landscape. Getting that custom built-in look for your backyard has never been so easy! Available with or without massage therapy jets, Inground Spas are the ultimate answer to relaxing in-ground hydrotherapy.
