

CONTENTS

It's the best moment of the day.

Hydrotherapy is fundamental to allow any athlete to get the most of their performance. An exceptional aid to recovery after a muscular effort, ensuring you are ready for the next challenge.

Like those of the US Ski Team, who chose Jacuzzi[®] as partners to help their athletes become leaders on Ski circuits around the world.

A perfect union with the world of skiing, Jacuzzi[®] also confirmed their role as an official event sponsor of the FIS Alpine Ski World Cup. The best for the downhill champions, the maximum for you: because for Jacuzzi[®] athletes are all equal.

THE NAME THAT LAUNCHED AN INDUSTRY CONTINUES TO REDEFINE IT.

JACUZZI BROS

When the seven Jacuzzi brothers immigrated from Italy to the United States, they had no idea that a pump they designed for orchards would revolutionise hydrotherapy in the home. And while the family's critical need to change the life of a child triggered this therapeutic invention, a desire for wellness pioneered an industry.

For friends and family time

For when your body needs enhanced recovery

For a little quiet time

For that impact in your garden, on your terrace or balcony

"For me it was relieving the stress of the working day"

"All our friends just loved coming around"

"Nearing retirement it became my new hobby"

"Designed to standout - designed to blend in seamlessly"

"Solid structures built to last and perform"

"Worldwide patents keep us ahead of the rest"

TriFusion™ process with reinforced backing for a longer lasting, crack-resistant surface.

PROENDURE™ SYNTHETIC WOOD CABINET

UV-resistant to withstand weather extremes and stay beautiful longer.

3 CLEARRAY® TECHNOLOGY

State-of-the-art technology that sanitises the water through the use of ultraviolet light.

Designed to create an ergonomic harmony between the human body and moving water.

PROPOLYMER™ FOUNDATION

Protects the internal equipment from moisture and the elements*.

6 FOAM INSULATION

Quieter performance helping to maintain water temperature and support pipe work, whilst still leaving sufficient access for standard servicing and maintenance**.

All Jacuzzi® hot tubs come with a high density foam cover colour matched to the synthetic cabinets.

Options and features may vary from country to country, please ask your local retailer.

^{*}Available on J-500TM, J-400TM, Italian Design, J-LX® & J-300TM Collection.

^{**}The Italian Design Collection is available with an optional Winterpro kit.

ELITE PERFORMANCE MORE JETS DO NOT EQUAL A BETTER HYDROMASSAGE, BUT THE RIGHT JETS DO. FROM THE PERFECT MIX OF AIR AND WATER TO THE CAREFUL PLACEMENT OF EACH EXCLUSIVE POWERPRO® JET, WE DELIVER THE OPTIMAL MASSAGE. AND THAT IS WHY THE JACUZZI® BRAND IS RECOGNISED BY CONSUMERS AS THE INDUSTRY LEADER.

POWERPRO® JETS* COLLECTION

J-500™, J-400™, J-LX® AND J-300™

POWERPRO® JETS COLLECTION KEY

JACUZZI® EXCLUSIVE POWERPRO® **IET TECHNOLOGY**

POWERPRO® FX SMALL Based on FX technology, the FX Small Jets are perfect for a focused massage on key pressure points such as your feet.

POWERPRO® PX Perfect for small muscle groups in the wrists, hands and legs, the gentle pulsating massage can be adjusted for different rates

POWERPRO® BX Exclusive to the J-300™ Collection, the comforting yet rejuvenating bubbling effect massages the calves.

POWERPRO® FX The unique rifling action creates a rejuvenating, spiral stream of air and water, perfect for stimulating muscle groups.

POWERPRO® FX ROTATIONAL Focusing on smaller muscle groups with a kneading effect, the FX Rotational Jet stimulates surrounding tissue.

POWERPRO® NX2 This directional jet effectively relieves tension and strain in the sensitive and hard-toreach neck area through a highly focused stream of water.

POWERPRO® RX The spinning RX Jet delivers comforting relief to the back and shoulders utilizing the highest performance hydromassage the Jacuzzi® Brand offers.

POWERPRO® FX DIRECTIONAL Designed to relieve tension and improve circulation, this spiral action directional jet delivers a bold, targeted massage to the hips.

POWERPRO® FX LARGE ROTATIONAL With a wide swath that provides an exceptional massage for large muscles, the rotational action can help overworked, overstressed muscles and joints.

POWERPRO® FX Large Focusing on the middle of the back to relieve tension and muscle strain, the spiral action massage promotes better circulation.

POWERPRO® MX2 Based on the form and function of the original Jacuzzi® Jet, the new-generation jets deliver maximum volume at a higher air-to-water ratio to deliver a bold massage to the muscles in the lower back.

POWERPRO® IX Creating a stream of effervescent light, the combination of LED lighting and maximum airflow creates dramatic champagne-like bubbles.

*PowerPro® Jets are available in select models in the J-500TM, J-400TM, J-LX® and J-300TM Collections. Also available in Italian Design (except Alimia) and Professional ranges (except Lodge). Sizes shown are approximate.

HYDROMASSAGE RESEARCH SUPPORTS THE BENEFITS OF HYDROTHERAPY FOR STRESS, LOWER BACK PAIN, SLEEPLESSNESS, POST EXERCISE RECOVERY, LEG CRAMPS, ARTHRITIS AND FIBROMYALGIA.

JACUZZI® HYDROMASSAGE

 $J-500^{TM}$, $J-400^{TM}$, $J-LX^{\odot}$ AND $J-300^{TM}$

00™, J-LX® AND J-300™

EXCLUSIVE POWERPRO® JET SYSTEM

Utilising Jacuzzi® Aqualibrium®, the combination of versatile PowerPro® Jets, and our ergonomically designed seats, our products deliver an adjustable high-flow, low-pressure hydromassage that feels like no other.

AQUALIBRIUM®

The perfect mix of air and water.

THE RX JET THERAPY SEAT

The spinning RX Jet delivers comforting relief to the back and shoulders utilising the highest performance hydromassage the Jacuzzi® brand offers. This customer favorite seat is available in our J-500™, J-400™ and J-LX® Collections.

THE MX2 JET THERAPY SEAT

The deeply contoured bold lower back seat supports your body in the ideal position for a powerful maximum volume and low pressure deep tissue massage. Recognised as our original Jacuzzi® Jet, the MX2 Jet seat delivers a concentrated massage especially effective for larger muscles in the lower back.

THE FX-12 THERAPY SEAT

The full coverage neck and back seat not only delivers deep, adjustable pressure to relieve chronic aches and pains. The FX-12 seat also targets muscle tension in your calves and feet for a full-body experience.

THE PROAIR™ LOUNGE

The perfect combination of two types of PowerPro® Jets, this muscle knot release lounge seat stimulates surrounding tissue. The upper back rotating massage of the FX Rotational Jets eases the tension of the muscles along your neck and shoulders while the rifling action targets the smaller muscle groups of your legs and lower back.

CONVENIENCE SOPHISTICATED YET SIMPLE, OUR WATER MANAGEMENT SYSTEM IS TRULY DESIGNED FOR EASE OF USE AND EXCEPTIONAL PERFORMANCE. UTILISING CLEARRAY® TECHNOLOGY AND UP TO FIVE STAGES OF WATER MANAGEMENT, SIMPLY, JACUZZI® BRAND TECHNOLOGY MAKES IT EASY TO MAINTAIN CLEAN AND CLEAR WATER.

WATER CARE

CLEARRAY® TECHNOLOGY WITH PROTECT™ AUTOMATIC OXIDIZER

Designed to work with CLEAR**RAY**® UV technology, automatically oxidizing impurities in the water.

Low-output ozone has minimal off-gassing and prolongs life of equipment longer than traditional ozone systems.

The CLEARRAY® Water Management System offers clean and clear water. Using UV-C technology to neutralise waterborne pathogens and reduce the amount of sanitizer you use, maintaining clean, fresh, clear water has never been easier. CLEARRAY® comes standard on all models and requires a simple annual bulb change.

MULTI-STAGE FILTRATION

Up to five stages of filtration to ensure clear water to the finest particle for clean water quickly.

WATER CHEMICALS

Ensure your Jacuzzi® hot tub operates at peak performance longer with Jacuzzi® genuine parts, accessories and water care products.

COVERS

Your first line of defense in water care. From basic vinyl to premium PROLAST™ Covers, Jacuzzi® genuine hot tub covers retain heat and keep water cleaner.

WHERE WILL YOU SPEND YOUR TIME?

When everyone has a picture of their perfect hot tub, Jacuzzi® has to be everything to everybody. That's why we have created 6 unique ranges that deliver to all requirements from affordability & performance to style and hydrotherapy.

J-500™ LUXURY COLLECTION

Our flagship collection brings you an amazing combination of ground-breaking design, technological innovation and the now legendary Jacuzzi® hydromassage — a new standard in hot tub luxury has arrived.

J-400™ DESIGNER COLLECTION

Bringing you an experience of ultimate well-being through uncompromising performance, this collection also offers you an unrivalled haven of space. A truly unique hydromassage experience is complimented by an outstanding combination of music and lights.

ITALIAN DESIGN COLLECTION

A truly iconic collection, combining ultimate hydrotherapy massage with the very best design ideas. Bringing a new level of customisable options to enable you to blend your beautiful home addition to any room scenario, this range really is a design and wellness technology triumph.

J-300™ COMFORT COLLECTION

This range has been refined and enhanced to offer a much improved hydromassage experience. A much deeper massage is delivered by specifically targeted jets found within the Powerpro® therapy seats. With a great selection of colours and finishes you really can complement your environment with ease.

J-200™ CLASSIC COLLECTION

The ultimate choice that combines Jacuzzi® reliability, quality and value. This is without doubt a perfect introduction to the many benefits of hydrotherapy using Classic jets, whilst remaining true to the performance and style synonymous with Jacuzzi®.

PROFESSIONAL COLLECTION

Introduced to cater for a huge range of commercial applications this beautiful and elegant range can be found in Wellness Centres, Golf Clubs, Holiday Homes, small Leisure Clubs and Yachts to name but a few. Produced specifically for more intensive use this range still remains true to all the Jacuzzi® heritage values and delivers on every single one.

To help you refine your search for the ideal hot tub to fit in with your life & home, take a look at the 'Wellness Summaries' over the next few pages. They give you a wonderful insight into the hot tubs, their characteristics and what sets them apart.

THE PROFESSIONAL COLLECTION

Beautiful and elegant, the Professional range is suitable for intensive use in a wide range of commercial applications including holiday homes, wellness centres, golf clubs, small leisure clubs and yachts.

LODGE L, M AND S HAVE CLASSIC JETS, COMBINED WITH OPTIONAL BLOWERS

THE PROFESSIONAL COLLECTION

FEATURES IN THIS COLLECTION:

Control Buttons

Different from all our other hot tub control panels, the professional top side is designed to offer customised commercial performance. Either pneumatic or piezoelectric they are installed close to the hot tub rim and designed to be easy to use with pre-set programs allowing for a hassle free experience.

PowerPro® Jets

Patented Jacuzzi® PowerPro® Jets offer the most superior and advanced hydrotherapy experience combined with speciality blower air technology which offers a softer massage experience.

Design & Finishes

This range is developed and designed to be used indoors or outdoors within an in-ground situation in commercial or professional hospitality environments.

Mood Lighting

Filtered LED lighting for a subtle yet exquisite feature allowing you to set the ambiance for whatever the environment from fun to relaxation.

Deep Immersion Seating

Strategically positioned jets in every seat offers a unique point of difference, whilst deep immersion ensures the entire body is submerged for complete relaxation.

Aromatherapy

Concealed aromatherapy beads letting your guests relax in the aroma of their choice.

Complete Drain System

Ensures up to 50% faster, hassle free and more hygienic water change overs.

Integrated Steps & Child Seating

Designed for all guests and users from adults to children to ensure maximum comfort and safety.

Insulated Cover

A heavy duty, lockable and insulted vinyl leatherette cover to prevent any misuse or heat loss whilst not in use.

OPTIONAL FEATURES IN THIS COLLECTION:

Booster Kit

A completely automated system for disinfection and PH control with additional filtering and downloadable reports.

Heat Exchanger

A heat exchanger is an inexpensive, green solution that exploits the heat produced by your facility's heating system or renewable energy source.

Ozone Generator

Designed to increase water clarity and quality in order to comply with legislation in commercial environments.

Compensation Tank

Separate water filtration tanks work in harmony with the 15 degree angled overflow allows for effective water recycling and circulation for content water maintenance ensuring a clean bathing environment.

Options and features may vary from country to country, please ask your local retailer.

EXCLUSIVE FEATURES IN THIS COLLECTION

IN ENJOY, VIRGINIA, SIENNA, ALIMIA AND PROFILE PRO OVERFLOW RIM & AUTOMATIC WATER FILL

A distinctive feature of the Professional range and Profile Pro is the 15° angled overflow gird around the surface of the hot tub. It collects surface water, which overflows through the grid to a compensation tank. The water is then moved through a filtration system, cleaned and pumped back into the base of the hot tub to be re-used. Thanks to the slant of the grid the water remains at spa deck level even if there is a rocking motion, so they can be installed on yachts and ships.

IN ENJOY, VIRGINIA, SIENNA, ALIMIA AND PROFILE PRO IN-GROUND INSTALLATION

Different to a domestic hot tub, installation is in-ground and involves installing a separate spa-pack and compensation tank to allow water to continuously move through a quartz sand filter where it is cleaned before flowing back into the tub for re-use.

Only Profile Pro can be installed freestanding with the adjacent spa pack.

IN ENJOY, VIRGINIA, SIENNA, ALIMIA AND PROFILE PRO SAND FILTER (SPA-PACK) & COMPENSATION TANK

The professional spa pack includes:

- Sand Filter (sand included)
- Set of pumps (hydromassage, circulation and blower compressor)
- With or without heating (electric heater or heat exchanger)
- Control system
- Compensation tank is available in a standard or low height. Profile Pro features integrated tanks.

SPA-PACK

The Professional hot tubs baths are also distinguished by the very low noise level of the system. The Jacuzzi® technicians have in fact designed the set of pumps, the water heating system consisting of the electric heater and of the heat-exchangers, the compressors for the blowers and an optional ozonizer (indispensable to further increase water quality) in an independent technical compartment (Spa-Pack) that can positioned at a distance of up to 6 metres.

Thanks to superior quality filtering, the quartz sand filter makes these hot tubs ideal for professional use. The filtered water flows back to the hot tub through the ground drainage point: this method, as well as offering the visual effect of an "underwater fountain", sends the particles deposited at the bottom of the hot tub into circulation making them more likely to be captured by the jets that send the water to the filter. Although it is technically complex, the system is easy to manage even by home users by means of pneumatically controlled buttons.

Spa and piping system

- I Overflow channel with grid
- 2 Pneumatic buttons
- 3 Connections to plumbing
- **4** Perimeter metal supports

Spa-Pack

- 5 Electric wiring box
- 6 Optional:
- **6a** Heater (12 kw)
- 6b Heat exchanger
- 7 Hydromassage pumps (2+2 hp)
- 8 Filtering pump
- 9 Quartz sand filter
- 10 Safety switch
- II Temperature sensor

Compensation tank

- 12 Water loading/filling solenoid valve (3/4")
- 13 Pre-filters
- 14 Overflow
- 15 Ground drainage points

Spa-Pack

Overflow tank

Lowered tank

Booster Kit

Professional water analysis and control system. A completely automated system for disinfection and PH control with additional filtering section and downloadable reports.

THE LODGE COLLECTION

FEATURES IN THIS COLLECTION:

LED Control Panel

Even in the dark, Lodge's controls are simple and user-friendly, courtesy of the display panel with its luminous frame. The system allows you to restrict your guest's functions to hydromassage and rainbow.

Above or In-Ground Installation

This range is developed to be used outdoors freestanding or in an in-ground situation in commercial or professional environments.

90cm in Height

The range is developed to be easy to access creating a safer bathing experience for your guests.

Mood Lighting

Filtered LED lighting for a subtle yet exquisite feature allowing you to set the ambiance for whatever the environment from fun to relaxation.

Integrated Steps & Child Seating

Designed for all guests and users from adults to children to ensure maximum comfort and safety.

Insulated Cover

A heavy duty, lockable and insulted vinyl leatherette cover to prevent any misuse or heat loss whilst not in use.

OPTIONAL FEATURES IN THIS COLLECTION:

Performance Kit

The performance kit has a sand filter and a pump installed outside the spa. Designed for intensive use the only maintenance required consists of periodically replacing the sand.

CLEAR**RAY®** PROTECT™

State-of-the-art technology that sanitizes the water through the use of ultraviolet light.

Nordic Kit

An advanced foam insulation which improves performance efficiencies in colder weather climates and environments.

Heat Plus

The Lodge hot tubs come standard with a 2kw (S and M) or 3kw (L) heaters, which can be upgraded for even quicker heating performance with an optional 6kW (3+3) heater to the 2kW one.

Heat Exchanger

A heat exchanger is an inexpensive, green solution that exploits the heat produced by your facilities heating system or renewable energy source.

EXCLUSIVE FEATURES IN THIS COLLECTION

COMPLETE & QUICK DRAIN®

All the water is emptied out of the spa through a drain located in the base. This prevents stagnant water and allows you to thoroughly clean the hot tub during change overs for your next guests.

The Quick Drain[®] device reduces drain times by up to 50% compared to standard hose pipes or submersible pumps.

HEATER OR HEAT EXCHANGER

The Lodge range can be fitted with an upgraded electric heater or a heat exchanger, which is an inexpensive, green solution that exploits the heat produced by your facility's heating system or by renewable sources.

To shorten heating time even further you can use the heat plus option in addition to the standard heater.

OPTIONAL SAND FILTRATION

Optional sand filtration gives long standing assurance of hygiene and cleanliness because it traps the impurities in the water. It is easy to remove, must be cleaned on a regular basis and replaced when necessary.

A large spa designed for use in public areas within hotels, swimming pools and wellness environments. Complete with a lounger this spa really offers your guests a full wellness journey.

Spa-Pack

Compensation Tank

Seats with Separator (privacy)

HOT TUB COVERS

Make protecting your investment both stylish and simple.

STANDARD VINYL

FABRIC

Standard covers offer basic protection, helping to maintain heat and keep debris out of your hot tub.

SILVER WOOD

WHITE

PROLAST^{TM*}

Engineered for durability from superior marine-grade material, Jacuzzi[®] ProLast[™] Covers are 25% lighter for easier handling and add a premium touch to your outdoor decor.

PROLAST™ EXTREME*

Jacuzzi® ProLast™ Extreme Covers are made from superior marine-grade material, offering the greatest weight-load bearing capacity, the highest density foam, and are pitched to encourage run-off of rain and snow.

ACCESSORIES FOR YOUR JACUZZI® HOT TUB

Your new Jacuzzi® hot tub is not complete without some essential accessories that help you adapt to your new hot tub lifestyle more easily. Customise your hot tub area and create an exclusive space that is practical but also exquisite in garden furniture design.

Don't forget to look for some matching steps that will help you enter and exit your hot tub safely, a suitable cover lifter to help you lift your cover off and on really quickly, some Jacuzzi[®] sanitiser to keep your warm water clean and of course some lovely fluffy Jacuzzi[®] bathrobes to keep you warm as you cross your garden!

CUSTOMER SERVICE AND ON-GOING COMMITMENT

SHOWROOMS

When you have an idea of the hot tub model that will suit your needs, you can see the real thing on your nearest showroom. Our experienced sales force will then take you through the purchase process and in many instances give you're the opportunity to try out hot tubs in demonstration areas.

DELIVERY

Once you have selected the hot tub you can arrange for it to be delivered... this part of the process involves us scoping out the fitting area, the location of your home and the logistics of bringing the tub to you.

FITTING

After the electrical work & level base have been completed, Jacuzzi® will send their expert fitter to connect the hot tub to its designated power source. They will then fill the tub to the right level and then demonstrate the correct way to use it.

AFTERCARE

With the hot tub installed and being used at your leisure. It's good to know that Jacuzzi® is always on hand to deal with any questions, offer tips and recommend the best ways to keep your unit running smoothly.

AFTERCARE
